## Thought for July 2017

### Sink the ship for a ha'porth of tar!

We seem to be having a torrid time of it recently with the terrorist attacks in London and Manchester and the terrible fire at Grenfell House. Just as we begin to return to normality something else happens.

The election result too was a surprise and confounded the pundits' and politicians' expectations. I suppose we shouldn't be surprised at all. All I can say is that I am relieved that more people are voting and becoming involved in politics, for a healthy democracy needs everyone's engagement and voice. What we don't need is for power to be concentrated in fewer people's hands that become unaccountable and can lead to tyranny.

We don't know for sure but it seems that the fire became a disaster because of the cheaper cladding that was used avoiding regulations. We see it all too often, Government cuts mean councils outsourcing services to save money, who also have to cut costs to make a profit, in this case at the cost of lives. The residents' complaints had no voice in a Borough having the lowest council tax yet most expensive properties in the country.

Whilst we all realise we have to live within our means, we also know that if we neglect our public services and safety that the likely result is that that people will suffer and the poorest suffer most, as we have seen with austerity in Greece. The Old Testament Prophet Hosea in chapter 8 vs 7 put it like this 'We sow the wind and reap the whirlwind.'

With blessings, Rev'd Chris Woadden.

## 1809

*Had you picked up a daily newspaper in 1809, you would have read the big news that Napoleon 1, Emperor of France, had conquered Austria at Wagram, annexed the Illyrian Provinces (now part of Slovenia, Croatia, Bosnia and Herzegovina, and the Federal Republic of Yugoslavia), and abolished the Papal States.*

But in the same year, in France ... Louis Braille, who devised a way for the blind to read, was born.

And in Germany ... Felix Mendelssohn, the great composer of symphonies, was born.

And in England ... William Gladstone, the four-time prime minister and the father of public education, was born.

Alfred Lord Tennyson, the poet laureate of Great Britain, was born. Charles Darwin, the most influential scientist of the nineteenth century, was born.

And In America ... Edgar Allen Poe, the master poet and storyteller, was born. Oliver Wendell Holmes, the writer and physician who developed surgical techniques still in use today, was born. Abraham Lincoln, the 16<sup>th</sup> president of the United States, was born.

But at the end of the year 1809, the only event anyone thought to be important was Napoleon's conquest of Austria. That was the big news.

Today, who remembers the big news of 1809? Hardly anyone.

Napoleon's conquest is just a tiny blip on the big screen of history. But the world was changed forever by a few seemingly insignificant births that took place in the same year.

The year Jesus was born, most people missed it. Only a few were aware of the cosmic implications of his presence in a manger in Bethlehem. And so it is with all of God's work. Most of it is behind the scenes – hardly ever visible. It rarely makes headlines; instead it makes a huge difference in the lives of people because it is eternal.
